DEDICATION

The class of 1964 would like to dedicate our yearbook to Mrs. Dean for all her help and patience in our three years of Junior high. We really appreciate it and would like to thank her in this way.

Principal's Message

To the Class of 1984:

I extend my sincere congratulations and best wishes to the members of the graduating class.

Nine years of study in the Berkley School System has enabled you to prepare for new horizons. Through good effort and a positive attitude, you have taken advantage of the learning experiences offered in Berkley Schools. Thus with this solid educational foundation, you can approach high school with optimism.

Class of 1984:

I wish you success in your future endeavors.

Edward G. Canuel
Principal of Berkley Schools

To the Class of 1984.

Congratulations!

You have successfully completed your first eight years of schooling. Four more important years lie ahead. Regardless of the high school you will attend, try to take full advantage of all the educational opportunities offered to you.

Good luck and much success.

Sincerely,

Sherry A. Medeiros

Sherry A. Medeiros
Head Teacher

CLASS HISTORY

There is only little remembered about the younger grades, it's almost all but a mirage now. We did learn a great deal and had alot of fun but since we were young, most details have been forgotten.

Some of the little images we do remember though are that of the good times. In the younger grades we had class trips, unlike now. We also used to have recess, but we had to watch out though. If we got in trouble they'd be taken away.

Another clear memory is about our lunches. When we were young we would always fight over who had the best lunch box. To avoid these fights, alot of us just brought dinky little paper bags, since our appetite wasn't too big then, and, boy, have things changed in that respect

It took awhile, as we remember, to get used to school and the changing of subjects and teachers but we always adjusted well. The school was a big illusion to us then but now it's just a small school.

Though we may remember some little things we definately don't want to forget our patient teachers.

We would like to thank, Mrs. Nelson, Mrs. Delano, Mrs. Martinez, Mrs. Pugliese, Mrs. Keane, Mrs. Gay, Mrs. Moskal, Miss Pillsbury, Miss Hadley, Mrs. Rose, Mrs. Cormier, Mr. White,, Miss Rouleau, Mrs. Outlaw, Mr. Smith and a very special thanks to our principal, Mr. Canuel, our secretary, Mrs. Francisco, our nurse, Mrs. Deal and to all the teacher aides that all helped keep us in order. To them all we express our thanks.

In the year of 1981, our mirage shifted to the optical illusion called Junior High. We were finally leaving Berkley Elementary behind us. Little did we know that we'd soon be back into that school.

Arriving in this illusion, we discovered that many things were diffrent. We were no longer the top notch in the school, we could no longer call younger students "puny", for we were the puny ones. We met new friends and new teachers. Our teachers helped us through some tough times. Our school was, but colorful, with arrows telling us which stairs to go up and down. We also had some other rules, some we didn't like, that help us. At least thats what our teachers said. A block was placed in Miss Medeiros' room, which you had to carry to the bathroom during classes, you had a very big problem if the block wasn't there.

In the 1982 school year, we discovered that we would be going back to the dreaded Berkley Elementary School. For a long time the school read "Berkley" School. No one knew what our schools name was. What was happening? We were back here again. It wasn't as crowded at this school, as the other. We got used to this atmosphere once again. We had many funny experiences in 1982. The funniest, which wasn't funny to Miss Medeiros, was held a couple of days before the end of the year. We had a terrible food fight. The eighth graders got penalized by not going outside during the tremendous heat. We seventh graders got the worst of it. We couldn't go outside either, and we had silent lunch the remaining days.

Also for musicians there was SEMSBA. A special organization in South Eastern Massachusetts. Students auditioned and were nervous, but indeed happy with the results. We also put on a dance for the seventh, it turned out to be very amusing, but a lot of fun while performing.

This year began again in September of 1983. This time we were much more excited. We were eighth graders. We were no longer "puny". After selling what seemed like a million candy bars, we finally got our lockers. This definately had to be an illusion. The lockers were bright orange against yellow walls.

This year had proved to be very interesting. We had car washes, and the 8th graders . put on dances to raise money for graduation, lockers, and the Status of Liberty. Under Mrs. Stillers directions, the dances worked out well. Also in this year we realized we were not going to Taunton High, but to Somerset High. In closing we would like to give a special thanks to Mr. Smith. The class of "84" were his first students to graduate while he was teaching in Berkley. He helped us through our musical problems, such as S.E.M.S.B.A. auditions, Somerset auditions and band problems.

As we step out of this mirage we would like to say "Thank you" to: Mr. Ernest Cardoza, Mrs. Jean Dean, Mrs. Dianne Lobo, Mrs. Nancy Johnson, Mr. Edward Rafferty, Ms. Sherry Medeiros, Mrs. Janet Outlaw, Mr. Alden Smith and Mrs. Wilson.

A special thanks to Mr. Latham, who helped during Mrs. Lobo's absence. We would like to give a special thank you to our principal and secretary Mr. Edward Canuel and Mrs. Monica Francisco

TO THE CLASS OF 1984

We would like to say "Good Luck". Some of us will be together in following years. Some of you are new friends and some go back to kindergarten. Some of us will be going to Somerset, or Bristol Plymouth, and still others to Coyle Cassidy. Again we say "Good-bye, and Good Luck".

To the upcoming 8th graders, we the class of 1984 want to wish you happiness, and good luck in your final year at Berkley Middle School.

Acknowledgement

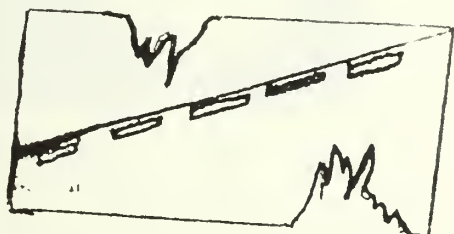

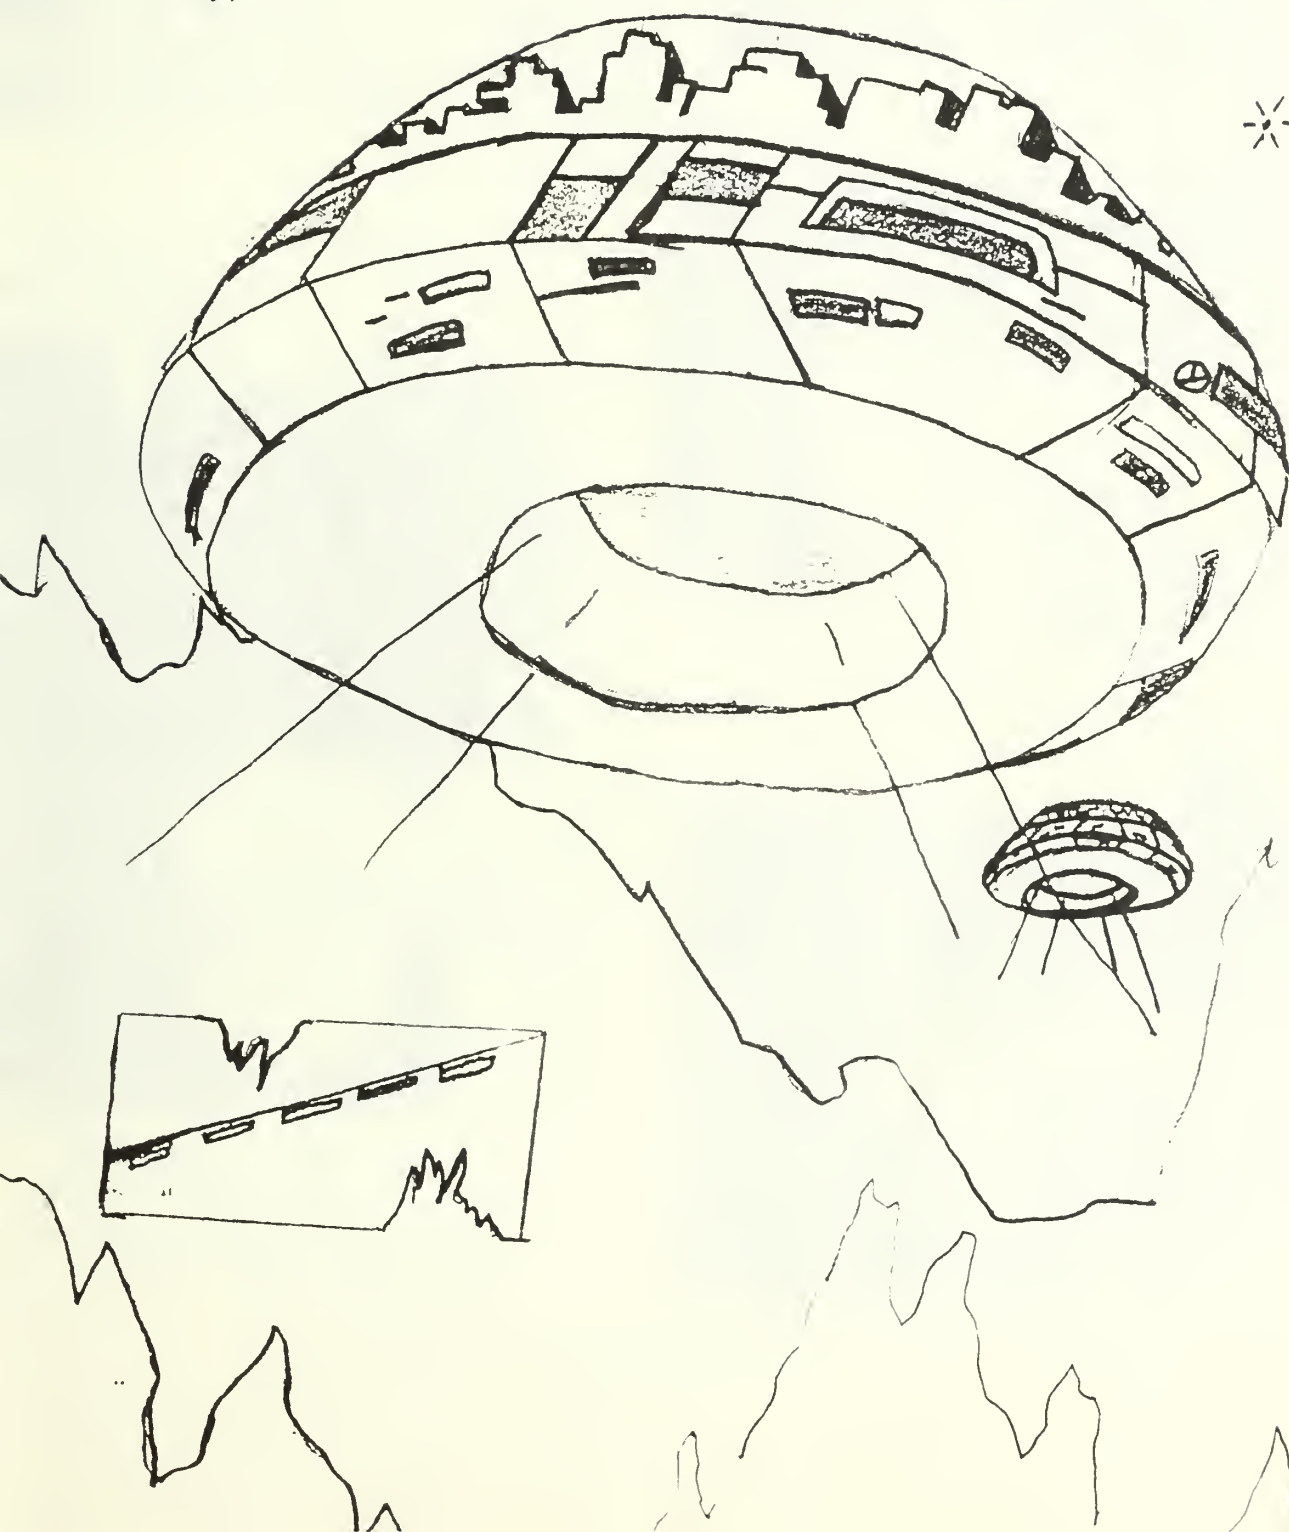

We the class of 1984 would like to express our gratitude and appreciation to Mrs. Janet Outlaw for her support and work in helping us to make this yearbook. Without her help, this yearbook would not have been possible.

THANK YOU AGAIN MRS. OUTLAW!!

LITERARY SECTION

"DEATH"

As virtuous men pass away,
They whisper to their souls to go,
While some of their friends do say,
The breath goes now, but some say no.
So let us melt and make no noise,
No tear-floods nor sigh tempest move.
When conservation of our joys
May prove to the laity our love.

THE UNICORN

The unicorn is a fantasy,
One that has always mystified me.
The lone horn on the head has he,
But just how did that come to be?
I think long ago, when he had two,
He fought with another, it could be true.
The fight could have lasted all day and all night,
One horn was knocked off, a most sorry sight.
I think that maybe he started a trend,
This one horned fellow gained many friends,
Then everyone from father to son.
Realized two horns weren't better than one.
This is what I think, it mightn't be true,
For I and my story are fantasies, too.

THE WEATHER

The Sun is shining in the west
With it's colors looking at their best
Slowly rising to the sky

I see no reason why

The gray clouds are way up high
Covering up the sun to stop it from shine

I still see no reason why

The weather man said,
"It will be sunny today".
So rain rain go away

DREAMS

Alone I sit,
Concealed in solitude,
For as long as I wish.
My heart sunk deep in my soul.
As I gaze out the window,
I stare at the sky, a beautiful
Carpet, with millions of holes
Cut out to light up the earth below.
As I watch I wish I could
Escape to the stars,
And be rid of the pain and sorrow
That fills my soul.
I look up again
And see a bird in flight,
A beautiful white dove,
Soaring for the stars.
Then, as most dreams must end,
The dove doesn't reach its destination,
And is forced back to where it started.
As I think of this I realize
Not all dreams come true.

HIS FIERY SERVANT

I will walk down the dark road.
I will turn and feel on my face,
The kisses of death, like scented rain.
For death is a black slave with his little
silver birds, perched in a sleeping wreath on
his head.
He will tell me, his voice like the crackle of flame,
How he has tiptoed after me down the road.
Then he will graze me with his fatal hands.
And then I will be one of his sleeping birds,
In his fiery dungeon, as he tiptoes on,
Leaving behind the smell of brimstone.

NATURE

Snow has come,
and snow has gone.
Now the singing birds
come along.
They will sing us a little song
To keep our spirits up all year long.

You wake up with the morning light
And you see a robin sitting
at your window,
You go downstairs to find some seeds
for her.
To your surprise when you turn around.
You see her at your door.

This robin becomes your pet
for the remaining year,
But soon she must fly away
for snow has come again.

THE NIGHTMARE

Lost in a place full of horror and fear
There's no escape, and the end draws near.
You try to run as fast as you can,
To a safer place, to a safer land.
But ghoulish hands have their grip on you.
Their grip holds on, and won't let go.

At last the terrifying hold does break.
And slowly, slowly you awake.
Stiff like a corpse, and afraid to move,
A chilling sweat is all you feel.
You wonder if it's over yet.
Then, all at once you know it's true.
The nightmare's fever has lost it's grip.
